OTHER COMMENTS*****
Pgdem
Not for official use
Point of diversion changed from Sec. 22 T6N R1W to Sec. 16 T6N R1W so as to
run water through North Ogden Canal, the Utah Power & Light Co. Penstock and
tail race, then thru wooden flume and concrete ditch to points of use. In
this way to put to use for irrigation purposes, the carrier water formerly
lost in the Ogden River channel by evaporation and seepage.
